TO WHOM IT MAY CONCERN

As National Curriculum and Development Center, we are often times engaged in the recruitment and selection of staff for various positions relating to curriculum development and other administrative positions. For the past two years, PIBA Consult Limited has been and still is our company of choice when it comes to matters of psychological testing and recruitment and selection of candidates. PIBA Consult was selected after a vigorous screening exercise that saw four companies express interest and it was awarded a one year renewable contract to carry out all recruitment and selection tasks as and when they occur. It is now coming to the third year and we find this company handy, composed of highly professional consultants whose integrity and quality of work is exceptional. In our opinion we believe that any party interested in recruiting and selecting right talent should utilize occupational/industrial psychologists who not only have the tools but they also understand the consequences of a bad hire. PIBA Consult Limited team is well furnished with these psychologists. We strongly recommend the company to any organization seeking Human Resource management and development interventions.

Yours sincerely,

John Habiyaremye
ADMINISTRATIVE SECRETARY
